## **RABBIT UP A YOUTH PROJECT CONCEPT NOTE**

Bwindi Raha Foundation is a non-profit organization in Buhoma Town Council Bwindi Kanungu South Western Uganda. The project registered one child and later more and more children were registered. The register children now are 45 children and over 250 applications are on the table.

The child should grow up in a family environment and in atmosphere of happiness, love, guidance and understanding. From a child's physical and mental development, they require care in regard to physical, mental, oral and social development. But social indicators show a decline in social and economic welfare of children.

Low levels of education among the whole population of the community has also been attribute to the increasing number of orphans children as a result of HIV and AIDS scourge, poverty and poor health conditions.

Our main aim is to tap into the disadvantaged youth population within our community and stir them up with rabbit rearing scheme.

Once we secure the funds it will be a permanent model rehabilitation for the youth within the community. In addition to this project will be sustained in the following ways; Accessing funds from global donors, and chain distribution of rabbits from the beneficiaries that received the rabbits before to the other beneficiaries.

### **Mission**

To provide a simple sustainable income generating scheme to the disadvantaged youth of Buhoma Town Council.

### **Vision**

To empower the youth economically within Buhoma Town Council and later to other Sub Counties.

### **Goal**

BRF's goal is to improve the financial capacity of disadvantaged youth that do not attend school due to family social factors.

## **Objectives**

To provide Rabbits to the youth

To occupy the youth that do not have funds to attend school

To engage school dropouts through agricultural projects

To promote social equality in the community

## **Target population**

This project will mainly target the youth below the age of 20 years that have never attended school and school dropouts. Buhoma Town Council has 5 wards and two (2) youth/beneficiary will be selected from each ward. A beneficiary will receive a doe and a buck at the same time.

## **Sustainability**

A doe gives birth to Kittens ranging from 1-14 within a period of 30-32 days which means that a rabbit produces 12 times a year. Each beneficiary will give out two kittens to the other youth for the first month and the second month. The process will repeat its self for a year and the project will be terminated. The beneficiaries will be required to build a hutch in order to receive the rabbits.

## **Beneficiary selection process**

The Chairperson Local Council 1 will be informed about the project and included in the selection process. The beneficiaries present their National IDs and recommendation letter from the government representative. The vetting will be done to select the right beneficiaries.

## **Monitoring and Reporting**

The project Community Interventions Officer will monitor the process of hutch construction after the selection of the beneficiaries. Advise the project officers on the procuring of the right breeds and in distribution. He will also compile project monthly progress reports and hand them to the organization.

## **Project budget**

The project will need to buy 10 doe rabbits and 10 buck rabbits to distribute to the beneficiaries and each doe and buck costs \$ 6.

<b>Rabbits</b>	<b>No</b>	<b>Cost Per Each</b>	<b>Total</b>
Doe	10	\$6	\$60
Buck	10	\$6	\$60
Mobilization	1 month	\$498	\$498
Monitoring cost	12 months	\$80	\$960
<b>Total</b>			<b>\$1,578</b>

**Note;** the hutch cost is not budgeted for because we would really need the beneficiaries to be responsible in rearing the rabbits and so we left the construction of the hutches to the beneficiaries and a mode of showcasing their willingness in the project.

### **Conclusion**

The project has skilled personnel make it successful yet it just only needs a simple capital to start. I therefore call upon you to give us support in order realize this plan.
